Diversified. | **Microsoft Teams**
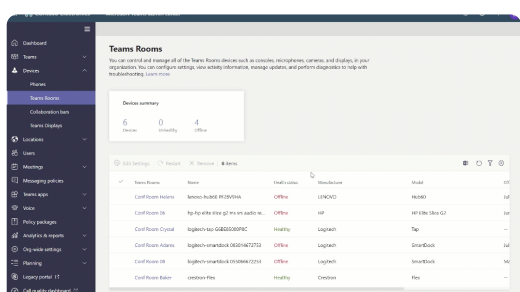

#ReimaginePhysicalSpaces

Boost the security and reliability of meeting rooms with Microsoft Teams Rooms and Diversified

Keep devices secured, reliable and up to date with rich management capabilities and powerful analytics.

Enjoy security by design

Hardware - Microsoft Teams Devices

Secure by default with out of the box security and automatic updates

Windows User Account

Secured using Credential Guard to protect credentials from theft attack

Teams Rooms Application

Secured using the assigned access feature in Windows 10, limiting the application entry point

Stay on top of admin with ease

Manage Teams devices and settings in one place with tools for easy setup, inventory management, monitoring, and secured delegated administration

REI CO-OP

"We always make sure we prioritize security with a great user experience. The security inherent in Microsoft 365 and Teams has helped us reduce the need for remote employees to constantly use VPNs."

Chris Grey

Director of IT Infrastructure Engineering Services, REI

Accelerate the transformation of your meeting rooms
