

**MUNARRA**

CENTRE FOR REGIONAL EXCELLENCE

# Learning, Culture & Connection

Facilitating Learning and Connection  
in Regional Victoria

Industry: **Education**

Location: **Shepparton, Victoria, Australia**

The Munarra Centre for Regional Excellence is a result of a collaboration between the University of Melbourne, Rumbalara Football Netball Club, Greater Shepparton Council, the Kaiela Institute and the Academy of Sport, Health and Education. The Victorian Government invested more than \$30 million for the development and construction of the centre. The goal was to leverage the latest technology and a stunning architectural design to create a culturally rich hub for education, engagement and connection for First Nations in the Goulburn Valley region.

## WHAT WE DELIVERED

- Meeting spaces and boardrooms enable physical presentation and remote collaboration, allowing students to reach teachers globally.
- A zoned public address and background music system enhances communication and atmosphere.
- Touch screens and digital signage allow users to quickly view and book available spaces, as well as view other important information throughout the facility.

## IMPACT

The Munarra Centre for Regional Excellence project is transforming educational and community opportunities for Indigenous Australians in the Goulburn Valley. Diversified's integration of audio visual technology creates an engaging environment that enhances collaboration, communication and cultural expression, directly supporting the Academy's vision.
