Multi-Purpose Spaces

200+
Participant Capacity

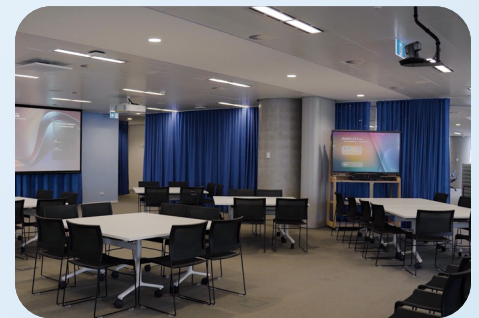

Zurich set out to modernize its North Sydney headquarters with multifunction collaboration hubs built for workshops, town halls, and largescale hybrid events. With remote participants often outnumbering those onsite, the priority was clear: seamless communication, reliability, and inclusion. Long-time partner Diversified helped bring this vision of frictionless, future-ready collaboration to life.

WHAT WE DELIVERED

- Ceiling array microphones for natural, hands-free audio in both spaces
- Level 17 flexible hub for workshops, reviews, and client events
- Level 2 reconfigurable auditorium for town halls and large gatherings
- Software-defined systems enabling updates without hardware replacement
- Consistent hybrid experiences where remote participants feel fully included

IMPACT

Zurich's collaboration spaces now anchor its workplace strategy, supporting executive meetings, workshops, and hybrid events with ease. Every participant—onsite or remote—has an equal voice, enabled by invisible, reliable technology. Software-driven systems ensure today's investment continues to deliver consistency, adaptability, and long-term value well into the future.
