## Digital Transformation Lowers Cost While Improving User Experience & Manageability

- Diversified facilitated a digital transformation to improve workflow across all verticals with Microsoft integrations.
- Diversified deployed standard Teams-based meeting rooms in locations across the U.S. with plans to implement internationally.
- This implementation has resulted in major costs savings with a reduction in licensing, lower cost per room, and an improved quality of meeting rooms.
- Diversified has proven to be a reliable and transformational partner working closely with key decision makers to help them scale meeting room changes across their environments.
